LIST ALL AUTHORS:

The authorship criteria for GPPAD publications adhere to the ICMJE’s Uniform Requirements for Manuscripts Submitted to Biomedical Journals guidelines. To qualify for authorship, each author MUST INDICATE THAT THEY PARTICIPATED IN AT LEAST ONE TASK FOR EACH of the four categories of contributions listed below.

(Additional information is available in the GPPAD Publication and Presentations Policies.)

IN THIS MANUSCRIPT, I PARTICIPATED IN THE FOLLOWING CONTRIBUTION CATEGORIES (CHECK ALL THAT APPLY):

CATEGORY 1

- conception and design: substantial contribution to study design, proposing or writing research project or manuscript plan.
- acquisition of data: facilitating the ability to obtain data by physical data collection from patients.
- statistical analysis and interpretation of data: developing analytical plan; programming or running statistical analysis of GPPAD data via statistical software; interpreting the results provided by a statistician.
- obtaining funding: awarded or acquired grants/financial awards for research project support.

CATEGORY 2

- drafting of the manuscript (*this does not include editing the manuscript for Steering Committee/journal approval*): substantial contribution to the writing of the manuscript including methodological / analytical / discussion sections (active participation in writing the manuscript).
- critical revision of the manuscript for important intellectual content (*this does not include reviewing the manuscript for Steering Committee/journal submission approval*): critical review of both intermediary and final drafts of the manuscript (includes providing constructive critique and refining the manuscript through rewrites).

CATEGORY 3

- final approval of the version to be published: review and approval of final draft of the manuscript prior to journal submission.

CATEGORY 4

- accountability: accepting accountability for all aspects of the manuscript in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

Specifically, I contributed the following:

I, the undersigned, certify that I have participated sufficiently in the conception and design of this work, the analysis of the data (where applicable and within my area of expertise), or the writing of the manuscript to take public responsibility for it. I warrant that my work is original and scientifically accurate, that it is not defamatory, does not invade any right of privacy, and does not infringe on any proprietary right or copyright. I agree to indemnify and hold the GPPAD data and biomaterial harmless against any claim to the contrary. I believe the manuscript represents valid work. I have reviewed the final version of the manuscript and approve it for publication. To my knowledge, neither this manuscript, nor one with substantially similar content under my authorship, has been published or is being considered for publication elsewhere.
